

EXPERIMENT – 7

NAME: ADHITHYA S

ROLL NO: 240701017

AIM

Design and compare 2 login screen UI layouts with different color themes and evaluate user experience.

SCREEN DESIGN (Based on Your Images)

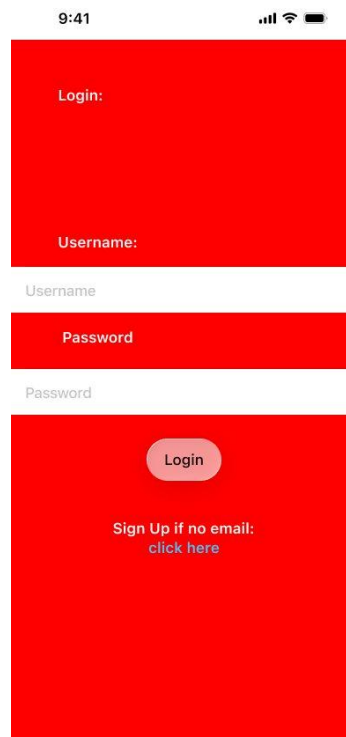

Common UI Structure (Both Layouts)

- Title: LOGIN
- Input Fields:
 - Username
 - Password
- Primary Button: Login
- Links: Sign Up

LAYOUT VARIANTS

Layout 1 – Red Theme (Basic UI)

- Background: Solid red
- Primary color: Plain white input fields
- Style: Simple, flat, basic
- UI Feel: Functional but less attractive

USER FEEDBACK (UI BASED)

Layout 1

- Simple and easy to use

- Needs better contrast
- Button looks flat

UI Feedback Survey – Login Screen Design

You are shown 2 login screen designs. Rate and give feedback on each. Your responses help us understand which UI works better.

Name (optional)

Short answer text

Age group

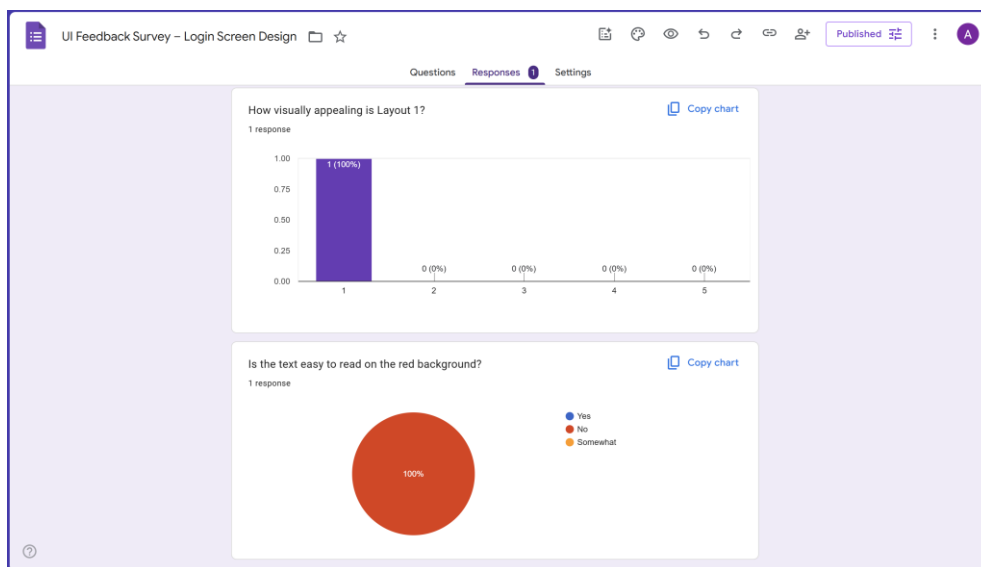

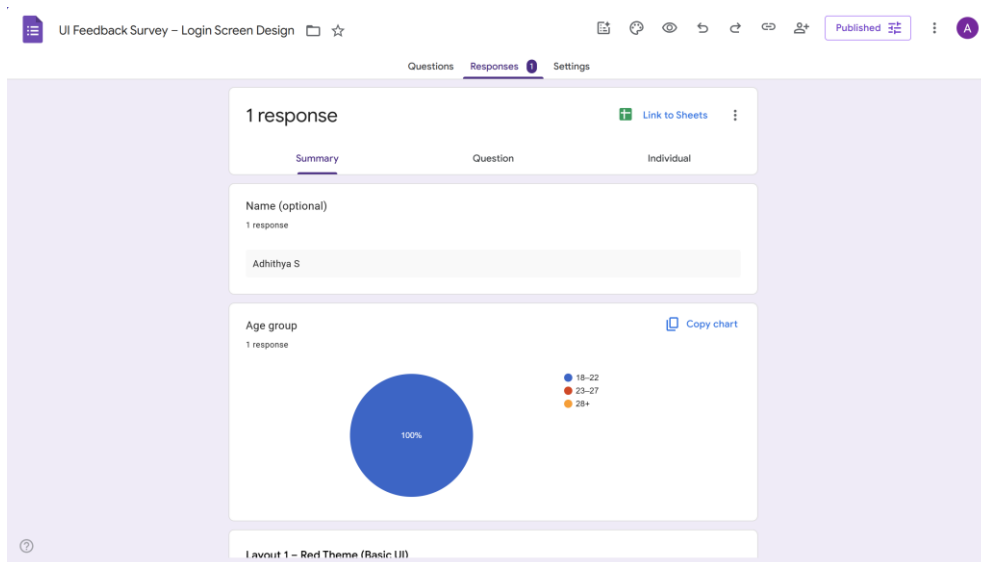

☐ 18–22

☐ 23–27

☐ 28+

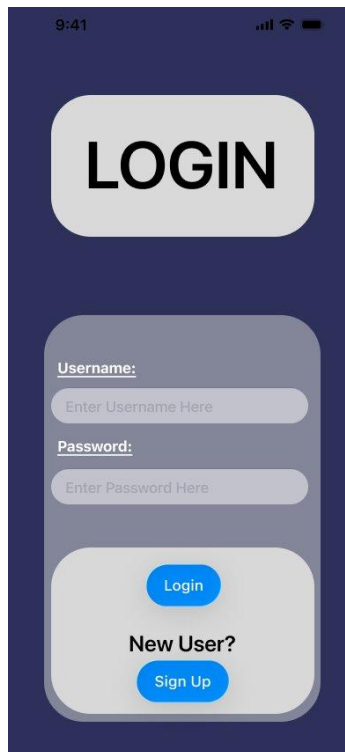

Layout 1 – Red Theme (Basic UI)

Simple login screen with a red background and flat white input fields.

Layout 2 – Dark Blue Theme (Modern UI)

- Background: Dark navy blue
- Input fields: Rounded with soft borders inside a card
- Button: Bright blue with rounded corners
- UI Feel: Clean, modern, and well-structured

USER FEEDBACK (UI BASED):

Layout 2

- Attractive and modern
- Good spacing and alignment
- Easy to navigate

FINAL RESULT

Selected Design: Layout 2 (Dark Blue UI)

Reason:

- Best visual balance
- Easy to use
- Modern and clean design
- Higher user satisfaction

FINAL IMPROVEMENTS

- Add dark mode
- Add animations (button press, transitions)
- Improve accessibility (contrast and font size)

CONCLUSION:

The dark blue-themed login UI (Layout 2) is the more effective design due to its clarity, usability, and modern appearance, making it the better choice for real-world applications.
